

Technical Service Desk Engineer

Job Description

Who We're Looking For

- Service Desk Engineer professional to be responsible for the support of the Benchmark Capital group users, computers and related systems
- The role has three shift patterns rota'd between 8am – 6pm with 1 hour lunch break

About Benchmark Capital

Benchmark Capital powers financial advisers through insight and integrated tools, services and investment solutions that help them differentiate their client proposition.

Helping advisers to look after their clients is at the centre of everything we do. Our award-winning solutions support over 150 advice firms, with £17.1 billion of assets under advice¹

With a technology-led ecosystem of regulatory, platform, and investment services, and our own financial planning business, our approach is guided by delivering safety and security for customers and focused on positive client outcomes.

We believe that first-class client service and integrated technology are essential components for long-term success. Our seamless, holistic approach works in harmony both to empower advisers and their clients and to generate tangible financial and competitive advantages.

We work with some of the most successful financial planning firms in the UK, bringing the power of technology to advice and wealth management

¹As at 31.03.21

The base

You'll be based at our Broadlands Business Campus near Horsham in West Sussex. It has high standards and international reputation, without being in the city: a big, countryside campus means life will feel a little different.

We support our offices by using cutting edge software and hardware and our spacious campus facilities mean there's a great working environment for the team. With an on-site restaurant, coffee shop and gym, our campus has much to offer. And commuters can relax on our dedicated regular shuttle bus to and from Horsham's main line train station.

We know that helping you balance personal and professional commitments is a big part of that, so we're open to flexible working. Many of our staff work flexibly in many different ways, including part-time. Please talk to us at interview about the flexibility you need.

What You'll Do

(This is not an exhaustive list of the duties to be performed. Job descriptions do not limit the tasks that an employee may reasonably be requested to perform. Changes in job descriptions may be necessary as the needs of the Organization change over time.)

- Receive and respond to incoming calls, e-mails and service desk tickets regarding issues that arise, prioritising as necessary, resolving them within agreed timescales and escalating to other members of Infrastructure, as appropriate.
- Perform daily routine maintenance checks on key systems.
- Accurately document instances of hardware failure, repair, installation, and removal.
- Oversee installation, configuration, maintenance, and troubleshooting of end user hardware, software, and peripheral devices, including telecoms.
- Account Management - create, issue and manage/maintain corporate accounts for joiners/leavers, following a fully auditable procedure.
- Liaise with and provide education to staff on computer operation, new user training, Infrastructure Policies & Application use within the business and other relevant issues.
- Help and support the IT team in deploying and rolling out internal software applications.
- Maintain stock levels for consumables, software licences and hardware.
- Ensure that client-side Endpoint protection and systems updates are active and applied to all workstations at all times.
- Maintain an inventory of all IT Assets as directed by the Technical Service Desk Team Leader and Infrastructure Services Manager.
- Monitor and test PC performance and provide statistics and reports to the Technical Service Desk Team Leader and Infrastructure Services Manager, as required.
- Ensure that the company complies with regulatory standards and best practices. Also help oversee IT related verifications, audits and due diligence.
- Implement policies and procedures related to computer systems operation.
- Travel to other sites occasionally to coordinate efforts and instruct users

The Knowledge, Experience And Qualifications You Need

- Demonstrable technical knowledge of modern client operating systems (Windows 10), and bestpractice IT standards.
- A good understanding of networking principles, including TCP/IP coupled with an understanding ofActive Directory.
- Ability to troubleshoot user problems in a timely and accurate fashion, and provide end user trainingand assistance where required.
- Excellent interpersonal, time management and communication skills- both written and oral.
- Customer focused and can present ideas and concepts in user-friendly language.
- GCSE / A-Level in the field of computer science or information systems or at least 1 year experiencein a technical desktop support role, troubleshooting and diagnosing faults in hardware such as desktop PCs, laptops, printers, telephones and mobile devices.
- Flexible and willing to work outside core business hours as required.

The Knowledge, Experience And Qualifications That Will Help

- Knowledge of deploying Windows 10 images in an organisation
- Microsoft MTA certification(s)
- Administration of Office 365 email or Exchange 2013/2016 system.
- Working knowledge of scripting with Powershell
- Knowledge of ITIL concepts

What You'll Be Like

- The ideal candidate is energetic, motivated with a 'can do' attitude, possesses good analytical and problem-solving abilities, and is keen to take on a role in a department with development and advancement opportunities.
- Due to the unpredictable nature of the IT industry, it is also important for this person to be willing to expand their IT knowledge, and to upgrade their skills set as and when required.
- The role will involve working in a small team in an environment of open information-sharing to assure cross-training and cover within the department.

Note: This description is not intended to cover all the duties of the role. Reasonable additional duties may be assigned or duties may be reassigned at any time and at the discretion of management.

We're Looking For The Best, Whoever They Are

Benchmark Capital is an equal opportunities employer. You're welcome here whatever your socio-economic background, race, sex, gender identity, sexual orientation, religious belief, age or disability.
