

Lead Developer

Job Description

Reporting To:	Development Manager
Responsibility for Others:	Yes
Location:	Horsham
Hours of Work	Monday to Friday 9.00am to 5.30pm with 1 hour for lunch
Any Special Requirements	None

Overall Purpose of the Job:

To be a hands-on manager of a small team of developers, focused on developing the suite of applications, built in ASP.NET. The work is varied (building new features, bug-fixing, code refactoring etc), challenging, fast-paced and rewarding. To deliver lean, pragmatic solutions that leverage the latest techniques across the whole .NET stack.

The core technologies used are:

- HTML, CSS, Bootstrap, jQuery
- C#, ASP.NET Web forms, ASP.NET MVC, ASP.NET Core
- SQL Server 2014
- git and VSTS

Key Activities & Responsibilities:

- Develop existing and new features to the product suite following the SAFe methodology
- Code reviews
- Working with Architects to implement new work and technology practices

Required Skills/Experience:

- 3 years' lead / management experience
- 5 years' experience of building web applications using ASP.NET web forms, C#, SQL Server
- 2 years' experience of ASP.NET MVC
- Working within an Agile methodology (e.g. SCRUM, Kanban)

- SOLID Development
- Strong written and presentational skills

Desirable Skills/Experience:

- Financial Services industry experience
- Working within the SAFe methodology
- 1 years' experience of ASP.NET Core
- SOA / Microservices
- DevOp processes
- CQRS
- NServiceBus
- Entity Framework
- Azure (Storage, ServiceBus, VMs)

Personal characteristics:

- Able to work well with colleagues such as other developers, architects, product owners and testers
- Highly motivated with an attention to detail
- Ability to manage tasks and workload – doing own development work whilst supporting others
