

# Quality Assurance Engineer

## Job Description

### **Who We're Looking For**

The overall purpose is to ensure quality for all changes made to our suite of applications, built in .NET or React Typescript. The work is varied (analysing requirements, contributing to overall delivery quality, writing test cases, extending the automated regression pack, driving automation coverage down the stack), challenging, fast-paced and rewarding. Being a robust, proactive quality gate within an Agile team.

### **About Benchmark Capital**

Benchmark Capital powers financial advisers through insight and integrated tools, services and investment solutions that help them differentiate their client proposition.

Helping advisers to look after their clients is at the centre of everything we do. Our award-winning solutions support over 150 advice firms, with £17.1 billion of assets under advice<sup>1</sup>

With a technology-led ecosystem of regulatory, platform, and investment services, and our own financial planning business, our approach is guided by delivering safety and security for customers and focused on positive client outcomes.

We believe that first-class client service and integrated technology are essential components for long-term success. Our seamless, holistic approach works in harmony both to empower advisers and their clients and to generate tangible financial and competitive advantages.

We work with some of the most successful financial planning firms in the UK, bringing the power of technology to advice and wealth management

<sup>1</sup>As at 31.03.21

### **The base**

You'll be based at our Brighton offices in the centre of Brighton, East Sussex. We support our offices by using cutting edge software and hardware and our spacious campus facilities mean there's a great working environment for the team.

We know that helping you balance personal and professional commitments is a big part of that, so we're open to flexible working. Many of our staff work flexibly in many different ways, including part-time. Please talk to us at interview about the flexibility you need.

### **What You'll Do**

- Analysing and helping to shape requirements
- Test planning, scripting (both manual and automated) and reviews
- Execution of tests to support sprint goals and deployments

- Test script reviews
- Becoming a subject matter expert for the project area being worked on
- Driving quality within the Scrum team and the wider delivery community
- Review test coverage at all layers and plan complimentary testing efforts efficiently

### **The Knowledge, Experience And Qualifications You Need**

- Ability to translate requirements into test scenarios using BDD / Gherkin syntax
- Experienced in driving quality as part of a Scrum team
- Proven experience in writing automation tests for web applications at various layers
- Automation tests must have been written in SpecFlow with C#
- Experience in API automation
- Test execution and report (manual and automated)
- Selenium experience
- Using source-control tools such as git
- Stakeholder Management
- Testing across multiple browsers/devices
- Strong written and presentational skills

### **The Knowledge, Experience And Qualifications That Will Help**

- Financial Services
- Working within the SAFe methodology
- CucumberJS with TypeScript
- ASP.NET
- React
- Familiar with CI / CD pipeline tooling – TeamCity and Octopus
- Understanding and usage of Kubernetes and Docker
- Usage of issue tracking systems such as JIRA
- Usage of Test Management Tools such as Xray
- Foundation ISTQB/ISEB
- Experience using Security or Performance testing tools and techniques such as OAuth Zap, Jmeter, Blazemeter

### **What You'll Be Like**

- Open and honest
- Excellent analytical skills
- Strong interpersonal skills – able to work well with others
- Proactive and willing to take on additional responsibilities when there are clear resource gaps
- Outcome focused
- Highly motivated with an attention to detail

- Ability to manage tasks and workload – doing own work whilst supporting others
- Should be adaptable to shifting priorities and changing circumstances
- Should embrace mentoring, and learning from others

**We're Looking For The Best, Whoever They Are**

Benchmark Capital is an equal opportunities employer. You're welcome here whatever your socio-economic background, race, sex, gender identity, sexual orientation, religious belief, age or disability.
